

The Pharmaceutical Compliance Forum

Workshop Overview

Compliance 101 Bootcamp

Audience: *For new to compliance professionals or those seeking to refresh their understanding of U.S healthcare compliance.*

Gain a comprehensive overview of the U.S healthcare laws, regulations and industry guidance which shape the pharmaceutical industry. Participants will explore recent updates and enforcement actions to gain a full understanding of the compliance expectations set by the government.

Through detailed discussions of the OIG's seven elements of an effective compliance program, attendees will learn how to structure a program that promotes ethical behavior and regulatory adherence. In addition, attendees will discuss ways to identify compliance risks, develop mitigation strategies and measure compliance effectiveness through monitoring and risk assessments.

This workshop is a highly interactive experience designed to teach the fundamentals of compliance and how to put them into everyday practice through small group discussions and problem-solving exercises led by our experienced PCF member faculty.

Objectives:

Understand the U.S. Regulatory Landscape, Industry Guidance and Enforcement Trends

Discuss the OIG's Seven Elements of an Effective Compliance Program

Recognize and Mitigate Compliance Risks

Understand how to Measure Compliance Program Effectiveness

Participate in interactive discussions and exercises to develop problem-solving skills for addressing compliance challenges in daily operations

Explore trends, emerging regulations, and best practices to adapt to an evolving compliance environment
